Hi Valois,

FYI - I reviewed both of these documents, and they appear to address the comments we had on the drafts. There still are a few minor editorial mistakes in the support document but nothing worth quibbling about.

Hi Valois, Bruce, and Rick,

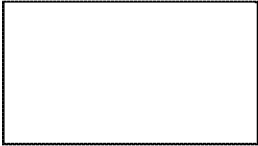

Attached are revised versions of the Task 1.2 and Task 1.3 deliverables (CSM criteria and support document). I have not made PDFs of them at this time because there are a few loose ends. We're requesting the image permissions and will take your suggestion and just use citations if we have problems getting permissions. Also, Alex has been running into a few glitches with the legends in Arc – we hope to have the map legends improved soon.

We've made text edits as per your comments in the attached files. The files are free of tracks and comments, so here are a few notes in response to your comments:
